

## KENT (ELSTER) DATA-LOGGER

### T210

### SCANCOUNTER ELECTRONIC OUTREADER

### Part No. T210 (SCANCOUNTER LCD DISPLAY COUNTER / TOTALISER

The Kent T210 Scancounter is a cost effective, remote wall counter, specifically designed to display an accurate meter reading in LCD form and can be installed in a location easily accessed by the meter reader. It is particularly useful in situations where access to the meter is prohibited or restricted.

The T210 Scancounter will count and store pulses from the pulse enabled meter. It can be factory (or in-field\*) set to display the meter reading in full billable units, eg m<sup>3</sup>, Cu ft and various other units of measurements.

Meter readings are taken directly off the T210's display or via touch reader, such as the Elster's T450 (SR10).

\* Requires Elster programmer.

MODEL	A	B	C
T210	134	228	86

#### Features & Benefits

- CE marked.
- High integrity pulse counting.
- Fully configurable.
- Long battery life.
- Leak detection.
- 8 digit display.
- Displays meter reading.

#### Temperature & Humidity

Temperature Range:-  
-30°C to 70°C.

Operating Humidity:-  
95% RH.

Sealing:-  
IP67 Electronics Enclosure  
IP44 Terminal Enclosure

#### ELECTRICAL SPECIFICATIONS

Power Source	3.6V Lithium Battery
Battery Low Indicator	On LCD & In Data Output
Maximum Input Frequency	40 Hz

CONFIGURATION	OPTIONS
Number Of Digits On Display	4,5,6,7,8
Scale Factor	1 to 2000
Programmable 10 Alpha Numeric Serial Number	
Programmable Initial Meter Reading	
Leak Monitor	
Tamper	Non Usage, Wire Cut, Magnetic Supplies
Choice Of Units	M <sup>3</sup> , Gallons, Litres, Cu ft, kl
Inputs	Any Reed Switch Or Open Collector Pulser
