F7352
Bronze Body
Bronze/Brass Disc
Screw Down Non Return
Angled
JIS Marine
Globe Valve
Flanged JIS-5K

Features, Benefits & Approvals
• JIS 5K specifications
• Class society survey can be arranged
• 3.1 & 3.2 certificates available on request
• Screw Down Non Return (SDNR)
• 15-40mm Secured screwed bonnet
• 50-65mm Bolted bonnet
• Gland sealed
• Bronze / brass disc
• Rising stem

Non-shock water:
7 Bar @ 120°C

Air, Gas, Steam, Pulsating Water:
5 Bar @ 205°C

Bronze metal seated gland packed globe valve to JIS Japanese specifications. Suitable for cold and hot water, seawater, saturated steam, oil and other neutral non aggressive liquids.

This valve has a non-return design, preventing reverse flow when in the open position. Also suitable for isolation duty, providing a leak tight shut off.

Independent third party test and inspection by various classification society surveyor’s can be arranged for shipside and primary isolation duties.
