Bronze metal seated gland packed globe valve to JIS Japanese specifications. Suitable for cold and hot water, seawater, saturated steam, oil and other neutral non-aggressive liquids.

This valve has a non-return design, preventing reverse flow when in the open position. Also suitable for isolation duty, providing a leak tight shut off.

Independent third party test and inspection by various classification society surveyor’s can be arranged for shipside and primary isolation duties.

Features, Benefits & Approvals
- JIS 16K specifications
- Class society survey can be arranged
- 3.1 & 3.2 certificates available on request
- Screw Down Non Return (SDNR)
- Secured screwed bonnet
- Gland sealed
- Bronze / brass disc
- Rising stem
