
JV110007

Cast Iron Angled Pattern Float Valve c/w Lever & Float

Flanged

PN16

The JV110007 is an economical cast iron angled float valve suitable for water and neutral fluids that are compatible with the materials.

The valve has a bolted cover plate and is supplied complete with lever arm and float.

Features, Benefits & Approvals

- Leakproof class A according to EN 12266-1
- EN 558 series 8 face to face
- No maintenance
- Bolted cover plate
- Supplied with lever arm & and adjustable float

Pressure & Temperature

Maximum pressure:-
10 Bar

Temperature range:-
-10 to 90°C
