

JV190010

**Bronze
Spinner Type
Flow Indicator**
Threaded BSPP
(NPT on request)

The JV190010 spinner type flow indicator is a simple and effective solution to visually detect flows from a distance.

Used in many applications including seawater, pump, compressor and diesel systems.

It can be installed in the horizontal or vertical position

Approvals, Features & Benefits

- Suitable for a wide range of fluids
- High quality robust design
- Simple and clear mechanism
- Low pressure drop

Pressure & Temperature

Max working pressure:-
10 bar
Temperature range:-
0 to 100°C

BSPP	1/4	1/2	3/4	1
A	76	76	89	89
B	60	60	60	60
C	65	65	85	85
Minimum Flow (l/min)	0.7	1.2	1.4	1.4
Maximum Flow (l/min)	12	40	75	120
Pressure Drop 2m/sec (bar)	0.1	0.1	0.3	0.5
Weight Kg	0.7	0.7	1.5	1.3

MATERIALS

Body	Bronze (LG2)
Clamp Ring	DZR Brass
Spinner	Yellow PPS Plastic
Dome	Annealed Borosilicate Glass
O-ring	Viton
Gasket	Klingsil C4400
Fasteners	Stainless Steel
