(NPT on request)

spirax/sarco

The SH sight check is a sight glass and check valve combination in one unit.

A ball in the top of the flow tube is lifted off its seat by the fluid as it flows through the cylindrical window to the outlet connection. The ball movement makes the flow easy to see yet provides shut-off on reverse flow.

Approvals, Features & Benefits

- Robustly manufactured
- Combined sight glass & check valve
- Low maintenance
- Easy & quick inspection
- Spare parts available

Pressure & Temperature

Pressure range:-
3.5 Bar

Temperature range:-
0°C to 148°C
